Dear Parents

IMPORTANT AND EXCITING SA COLLEGE INFORMATION FOR PARENTS

SA College Private School prides itself in the quality of the service it has over many years provided its learners and parents. We are extremely proud of the learners that we have managed to shape over the years and who have gone on to be successful in their tertiary studies and also in their personal lives in the job markets in South Africa and abroad. Our school has always been known and revered for the quality of its teaching staff from Grade R right through to the matric exit point and the results of the school go to prove this. For many years now we have been one of the flagship schools of the Gauteng Education Department. We are year upon year ranked in the top 6 schools in our district based on the excellence of our matric results.

This can only be achieved by a school that takes an interest in every learner and is prepared to offer holistic academic guidance of the highest order. The school is known for its support programmes in the form of additional classes in the afternoons, over weekends, during holidays. No stone is left unturned to ensure that every learner achieves at their highest academic potential. Such support is provided free of charge!

SA COLLEGE PRIVATE SCHOOL, PRETORIA

Prestige Photographic Group PTY (Ltd)

SA Collegians live according to the motto: EFFORT TODAY, REWARD TOMORROW and subscribe to the following values:

- Pride in their school
- Respect for God, Property and Relationships
- Integrity which embraces fairness, honesty and leadership
- Discipline that encompasses care and responsibility
- Excellence in all we do

One of the unique features of SA College is that it provides a ONE STOP DROP OFF AND PICK UP SERVICE to parents who work in the city. There is no additional charge levied if you wish to collect your child at 17:00 after work – our special child minder, Mr Allen never leaves his post until the very last child has departed from the school.

NEW DEVELOPMENTS AT THE SCHOOL

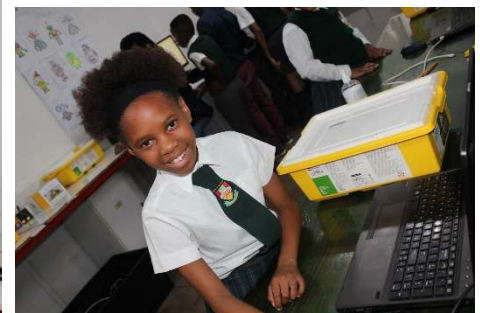

The school is undergoing a process of change and we are proud to bring the following developments to your attention:
The Playground Area

- What was previously the Primary School playground area has now been paved which means that all our learners now have a safe, open space to enjoy their break times which will be staggered in order to give all a chance.
- For the little ones there is a jungle gym which provides them with many hours of entertainment
- The playground area has been developed so that we can accommodate sports such as netball, volleyball, basketball and also mini soccer and mini cricket.

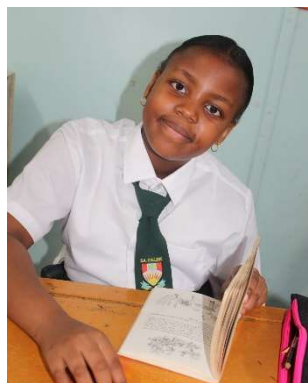

The Computer Facilities:

- In the course of the past years, we have added a second computer lab as well as two Robotic labs.
- We also have invested a lot of time and money in our Robotic Labs and believe we teach our learners what they need to know for the fourth industrial revolution.
- The introduction of this computer facility is aimed at exposing learners to programmes that are subject specific and in particular to offer them opportunities to make use of mathematic programmes

Special Reading and Mental Mathematics Programmes

- The reading periods for English and Afrikaans have been re-introduced to ensure learners know their languages properly
- The school has invested in READERS for every grade and is actively promoting this aspect of our learners' education
- Furthermore, it had become evident that today's learners have become too reliant on the use of calculators for simple mathematical/arithmetic calculations and as a result we promote our own programme of developing their mental mathematics ability.

Sport and extra-curricular activities

Sport and cultural activities are compulsory at SA College. A number of important developments take place each year. We offer an extensive list of activities in the afternoons, all suited to what we can offer as an educational institute of choice.

From a sport perspective we offer soccer, table tennis, netball and volleyball as our main sporting activities. Seasonal sports include athletics, bulletjie rugby, chess and action cricket to name a few.

We offer a library, debate and public speaking opportunities, an active Student Christian Movement, drama and both a junior and senior choir amongst our cultural activities.

Our primary school takes busses to the municipal sports grounds every Wednesday and our high school get transport every Monday and Wednesday for their sports training.

Please refer to the attached Activity Schedule for perusal of our planned activities for next year.

This is but a small glimpse into the continuous drive and improvement at SA College by the directors of the Rand-Ed Group.

It is our earnest wish that you will entrust your child to our care in 2025 by completing and signing the enrolment form that accompanies this letter.

Kind regards

Mr MA Cloete
Principal
